Hi! I'm Olivia Pellerin, class of 2024. I started playing golf when I was about 7 and fell in love with it. I love golf because I enjoy the challenges of competing against yourself and striving to beat the person you were yesterday. I love getting to travel and play at new courses and meet new people. I love getting up early and walking with my dad and getting to spend time doing something I love. Before I started playing golf I figure skated. Something I still continue to do today. I do ice-dance working with a partner, and then freeskate where I get to do jumps and spins. I typically get up early to skate before school so that I can play golf after school. I like being able to play both sports and how they are very much different, but both thrive off the self competition and the strong mental game and the willingness to keep pushing yourself.
